

Running EASY Reports

From the Home screen click on **Management banner** > click on the small black arrow next to **Reports** to expand the section.

The report categories available will now be listed.

Clicking on any of the small black arrows at the side of the heading will open the categories and list the reports available.

To run any of the reports

Click on the desired report from the list shown and enter the criteria requested on the screen and then press the Run Report button.

Example below is Absences > Absence by Individual

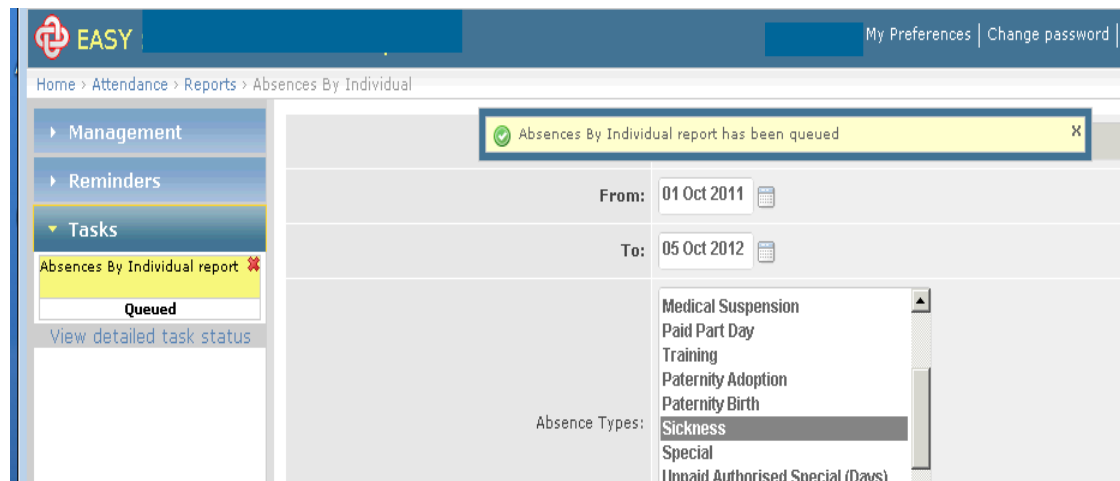

The report task manager will ask you to decide the priority of your request and give you an option to schedule the report for a later date and time. Press the Confirm button to run the report immediately or to confirm the schedule.

You will see an information message at the top of the screen and the report status under the Tasks banner:

Scheduled report - you can now exit the screen (see retrieving reports further down)

Non-scheduled report - wait for report to run.

Once a non- scheduled report has finished running the report status will change

Click on the green section under the Tasks banner to retrieve your report.

Click on the blue files line to open or save your report.
