Title		Covid secure Workplace risk assessment for Blood Donor Clinics during Covid-19 pandemic	
Reference Nu	mber	BD/RA/Coronavirus/DC/001	
E.g. BD/RA/	Gen/001 or D-HR-01		
<b>dentifier</b>	Immarise what you are asse	essing e.g. activity process, workplace,	6
	ference documents such as	essing e.g. activity, process, workplace. MPDs and SOPs then include the titles and numbers here.	
dentifier What might	occur?	This workplace risk assessment is for Blood Donation Clinics operating during the Corona virus Pandemic of 2020/21. It outlines which relevant government guidance NHSBT has implemented to reduce the risk of tra of COVID19 in Blood donation Clinics whilst collecting whole blood from NHSBT registered new and returni donors.	f ansmission ing Blood
		Increased social distancing for donors and staff will impact collection capacity but will reduce risk of infection	on.
