For risk asse	orrect form for your needs. assments this should be in with your training.					
litle		Covid secure Workplace risk assessment for Blood Donor Clinics during Covid-19 pandemic				
Reference Nu	mber	BD/RA/Coronavirus/DC/001				
E.g. BD/RA/	Gen/001 or D-HR-01					
dentifier	ummarise what you are asse	essing e.g. activity, process, workplace. • MPDs and SOPs then include the titles and numbers here.	6			
	actence documents such as					
Identifier What might occur?		This workplace risk assessment is for Blood Donation Clinics operating during the Corona virus Pandemic of 2020/21. It outlines which relevant government guidance NHSBT has implemented to reduce the risk of tra of COVID19 in Blood donation Clinics whilst collecting whole blood from NHSBT registered new and returnir donors.	nsmission Ig Blood			
		Increased social distancing for donors and staff will impact collection capacity but will reduce risk of infection	n.
