

Attention!

NHS

Blood and Transplant

Have you had contact with blood?

Have you had a needle stick injury?

Follow the four easy steps of 'STOP'

Seek First Aid treatment

Telephone 24hr Sharps helpline **0845 371 0572**

Organise for a 'serum save' to be taken (if requested to do so by the Sharps helpline) sending the sample and serum save form to testing for archiving

Paperwork – complete the relevant H&S accident paperwork: mobile teams on the provided accident form and all other staff on Datix

For additional information about what happens next and the risks talk to OH, your manager and consult INF803 – Information for staff following a needle stick injury. Full procedural details on accident & near miss reporting can be found in SOP429
