

RC Path Revision

WHO IS THIS FOR?

Speciality Registrars in Haematology and Transfusion Medicine, about to take the data interpretation section of the RC Path examination.

Structure

Five days (1 week)

THE AIM OF THE PROGRAMME

To prepare candidates for the data interpretation part (part 2) of the RC Path examination.

WHAT YOU WILL LEARN?

- Apply transfusion medicine/science knowledge and interpret results across a range of practical/clinical situations in order to satisfactorily complete the data interpretation part of the RC Path examination in Haematology and Transfusion Medicine

WHAT DOES THIS PROGRAMME COVER?

- A variety of clinical scenarios, case studies, data interpretation, tutorials and mock examination questions to prepare candidates for their RC Path examination in Transfusion Medicine. This is an examination orientated revision course

BEFORE ATTENDING YOU SHOULD

- All candidates are expected to have attended an Intermediate Transfusion Medicine course
- Have read the relevant recommended material as well as BSH Transfusion Guidelines
- Be working towards taking their RCPATH part 2 exam

PRE-COURSEWORK / LEARNING MATERIALS

There is no pre-coursework to complete for this programme. You will be sent all relevant materials 4-6 weeks before your programme date.

Core reading material to help you with this programme;

- Relevant BSH guidelines in Transfusion Medicine
- Practical Transfusion Medicine, Ed. Murphy and Derwood Pamphilon
